RE: Testimonial/Referrals

Motivation Matters organised a training day for us at Amberfield School on teamwork and leadership. Stephen and Ann worked with our Year 10 and 11 students. The day was very well prepared with an excellent mixture of talk and listen sessions. There were a variety of activities throughout the day which added to the learning experience and the fun; the students were given the chance to put the theory into practice. They gained much from the day and have been able to use the new skills learnt in a number of projects. I do believe that it has made a difference to the way they have worked on task together. The Year 11 yearbook for instance was finished by the end of February, a record!

Hope this is ok. Have a happy Easter.

Helen Kay
